

## FOR IMMEDIATE RELEASE

Karlos Gil — *Final Fantasy*

Solo Exhibition at Galeria Francisco Fino

Opening: May 22, 2025, 10 PM | On view through September 13, 2025

Galeria Francisco Fino is pleased to present *Final Fantasy*, Karlos Gil's third solo exhibition at the gallery, opening May 22<sup>nd</sup> at 10 PM. On view until September 13<sup>th</sup> 2025.

In *Final Fantasy*, Karlos Gil immerses us in a conceptual universe where fantasy, nihilism, contemporary ruin, time, science fiction and geology intertwine to challenge our perception of the present and projections of the future.

The exhibition presents Gil's most recent body of work— heliographies, drawings, sculptures, and video—that explore the links between the human and the inhuman, the eternal and the ephemeral, the imagined and the tangible.

*Final Fantasy* positions itself at a crossroads between disciplines, combining elements of artistic tradition with influences from film, literature, and video games. Each of the multidisciplinary pieces acts as a fragment of a larger narrative, which explores the limits of our understanding of the world. From sculptures evoking alien landscapes to immersive installations simulating states of technological collapse, the exhibition speaks not only to our reality, but also to the parallel realities that could have been or could yet become.

## Karlos Gil

Karlos Gil (Talavera, 1984) explores ideas of nature and its transformation over deep geological time to explore the “otherness” of our surrounding world. His practice examines the complex and often contradictory ways in which human beings relate with the natural world, layering his artworks with encrypted stories from science fiction, occultism, underground culture, nihilism, mythology and industrial and biological evolution. His latest projects are conceived as scenarios that generate new possibilities of co-dependence between events and the objects they produce, always reflecting on a manifest impression of the “fall of time”, decadence, ruin or obsolescence of historical time.
